President of the City Czestochowa  
Rector of Czestochowa University of Technology  
PAN Department in Katowice  
PTE Department in Katowice  
TNOiK Department in Czestochowa

#### Conference Topics

The aim of the conference is discussion and exchange of views between representatives of science, business and public sector entities. The subject of discussion is the identification of the dependence of management of business organizations and local government units in the context of the concept of sustainable development. The process of financial management is a particularly important area of consideration. Globalization of the economy and dynamic changes: economic, social and ecological are invariable attractiveness as an area of scientific exploration. We believe that the Scientific Conference "Sustainable development in management and finance", organized for the VIII time, has found a place in the calendar of meetings of theoreticians and practitioners of management and finance. Addressing both representatives of the world of science and representatives of business practice, it has become a forum for the exchange of knowledge, views and experiences between the academic environment, economic organizations and government and local government institutions.

#### THE MAIN THEMATIC PROBLEMS

Conference organizers particularly encourage to take up the issues mentioned below, but do not exclude the acceptance of studies on issues that also fit into the general theme of the conference. Proposed thematic blocks:

- Sustainable development in creating the value of business sector entities and the public sector
- Information technologies as a factor of sustainable development
- Sustainable development in the theory of economics and finance
- Corporate social responsibility and socially responsible investing
- Financing sustainable local and regional development
- Finance and financial instruments in environmental protection and ecological risk management
- Eco-rating and ecological verification of investments
- Modern methods of investment and innovation assessment
- Accounting and reporting in the face of new challenges
